

Column 1	Column 2	Column 3	Column 4
High-Priority / Critical Bugs:			
BUG_002 - Login bypasses authentication with incorrect credentials (Critical, High Priority)			
BUG_008 - Session timeout doesn't log out users, posing a security risk (Critical, High Priority)			
BUG_004 - Invalid payment details are not flagged, allowing potential transaction issues (High, High Priority)			
BUG_007 - Profile update fails to save new information (High, High Priority)			
BUG_019 - Logged-out session isn't cleared, allowing access to restricted pages (High, High Priority)			
BUG_015 - "Add to Cart" button remains clickable for out-of-stock items (High, High Priority)			
BUG_020 - "Remember Me" functionality doesn't persist after browser restart (High, Medium Priority)			
Medium-Priority Bugs:			
BUG_003 - Product removal from cart doesn't reflect immediately (Medium, Medium Priority)			
BUG_009 - Category filter on the product page doesn't work as expected (Medium, Medium Priority)			
BUG_010 - Discount code doesn't apply at checkout (High, Medium Priority)			
BUG_014 - Out-of-stock products appear in search results (Medium, Medium Priority)			
BUG_016 - Sorting by price doesn't work correctly (Medium, Medium Priority)			
BUG_017 - Search bar doesn't return partial product name results (Medium, Medium Priority)			
Low-Priority Bugs:			
BUG_018 - Rating system allows empty reviews (Low, Low Priority)			
BUG_012 - Terms and conditions page fails to load (Medium, Low Priority)			
Summary:			
Security & Authentication issues (Bugs 002, 008, 011, 019) are critical and need immediate attention.			
UI/UX and cart-related issues (Bugs 003, 005, 006, 015) are high priority for smoother user experience.			
Payment/Checkout system (Bug 004) should be fixed to prevent transaction failures.			
Functional Features like search, filters, and session persistence need moderate fixes (Bugs 009, 010, 017, 016).
